newspapers of the republic for their attitude in the recent political events. Col. Orozco, the general's father, was preparing for his trip to the camp of Emiliano Zapata in Morelos at the time of the banquet. He went to Cuatla in a special train, and from there on horseback to Zapata's camp, accompanied by two of the southern rebel leader's aids. Zapata had expressed a willingness to surrender to the superior wishes of Orozco.

Francisco Leon de la Barra, who was here to arrange the details for the Taft-Diaz meeting, was inaugurated governor of the state of Mexico recently, amid scenes which equalled the inauguration of the Mexican president, the Mexican Herald says. The ceremony took place in Toluca, the state capital.

Minister Alberto Garcia Granados, of the department of government, called at the penitentiary in Mexico City last Friday and promised to set free the political prisoners confined there. Among the prisoners was Alberto Fuentes D., who was a member of Madero's junta in El Paso during the Maderista revolution, and who was afterwards made governor of Aguascalientes by Madero. He started a Maderista movement in his state after Madero's death and was arrested and taken to Mexico City for trial. No mention is made of Abraham Gonzalez, Chihuahua, who was to have been placed in the penitentiary, but who was reported shot near Bachimba by federalists.

BRACAMONTE PLANS TAKING MEXICO CITY

Rebel Leader Tells of Sending Representative to Washington; Seeks Good Will of Americans.

Bisbee, Ariz., March 26.—"With the exception of one or two towns, Sonora is now in our possession. We control Chihuahua below the capital. With the complete control of the two states we will march on Mexico City," said Col. Bracamonte, in command of the state troops below Naco to an El Paso newspaper correspondent. "Our every idea will be to preserve neutrality. That is why we have not attacked Naco in the past. We are provisional president. Another move that we have made, and one that is not generally known, was dispatching last Thursday from El Paso a Juan Cabera, who will be our emissary in Washington. True, our released report will be sent him and through him communicated to the American state department. We have 200 men in this camp, four miles east of Naco, 150 west of Naco, 300 at Cananea, 200 at Del Rio, 1100 under Obregon and 1300 at Hermosillo. We also have four machine guns here."

"When we take Mexico City we will have a free election. No, I do not favor the idea of a permanent president. The man who comes when the time is right. No, we will not shoot Ojeda's men when they come. It is true that he shot our prisoners, but that is not warfare. I think that Ojeda is a brave man."

Bracamonte is well supplied with all necessities except water, of which his supply is small. In his camp he has three boys, who are hardly 10 years old, but who proudly display guns. Thirteen of his relatives are in the camp. Bracamonte is a revolutionary leader, but his men, he apparently has perfect control over them. He habitually goes unarmed, but is always escorted.

REBEL JUNTA FOR NATIONAL CAPITAL

Anti-Huerta Forces to Send Diplomatic Representatives to Washington to Do Lobbying.

Washington, D. C., March 26.—The anti-Huerta party is getting ready to establish a junta here and organize a propaganda to develop sentiment in this country in favor of the forces fighting to wrest Mexico from the Huerta-Diaz government.

This announcement was made by Francisco Gonzalez Gante, a representative of the "Constitutionalists" who arrived here today. The junta will represent the movement now headed by Carranza and its first effort will be to convince the American people that the Huerta regime started in treachery and murder and can only be sustained by such forces.

Gante said: "Carranza, by telegram today, informs me he will enter Monterey within a few days and he is now commencing operations against Saltillo. He requests that Saltillo be held as a negotiating for surrender, as he is supported by 5000 men and has the sympathy of the entire state of Coahuila and Nuevo Leon. He declares Huerta cannot last more than six weeks longer."

Allegations that Madero signed a resignation of the presidency before his "accidental" death were denied by Gante.

The move of the Carranza party to establish a junta in Washington follows in the footsteps of the Madero party which, during its revolution against Porfirio Diaz, maintained a junta here.

SALAZAR SHIPS CALVES TO JUAREZ

Were Gathered at Casas Grandes and Will Be Put On the Local Market; Mexican Cows Sold.

There are 250 calves in Juarez, shipped there from Casas Grandes by Juan Salazar. It is understood that an effort will be made to ship the stuff across the border and place them on the local market. These cattle were

picked up at Casas Grandes and other nearby points and many of them were branded at Casas Grandes last Sunday. The Nelsco-Morris Land & Cattle company imported 220 head of cattle from the T. O. ranch through Bosque Bonito, 40 miles south of Sierra Blanca, Tex., Tuesday. They were shipped to Midland for pasture.

P. Odel will arrive in El Paso Sunday with a trainload of cattle which he purchased in Chihuahua City. Sells Mexico Cows.

The Bingham-Love Cattle company has sold 400 head of Mexican cows to J. W. Allen, of Petersburg, Tex. Delivery will be made next month at Dryden. This same company has sold 800 head of New Mexico cattle from the Newman ranches. They will be delivered at Camarillo, N. M., April 1.

Chas. P. and Ralph Hunt have purchased 60 head of high grade Hereford bulls from S. Prewett and are sending them to their ranch at Lancaster, N. M.

OJINAGA REPORTED HELD BY MADERISTAS

Through the arrival of federal rurales at Guadalupe, a village opposite Fabens, Tex., a report has been received that Maderistas under the command of Toribio Ortega, took possession of Ojinaga, a port entry in the state of Chihuahua south of the town of Presidio, in Reeves county, Tex. The rurales reported that the Maderista band was composed of 1200 men and that besides Ortega, other Maderista leaders with the command were Juan Anaya, Napoleon Urazga and Melchor Vela.

No information has been received in Juarez of the reported fall of Ojinaga.

TROOPER IS SHOT BY MEXICAN BANDITS

Marathon, Texas, March 26.—Mexican thieves who were trying to break into the troop commissary storehouse here, shot trooper McGonigle, of troop C, 14th cavalry, early this morning.

Gonigle discovered the men trying to enter the storehouse where the troop supplies and ammunition were stored. They fired three shots at him, one striking him in the left arm above the elbow. He emptied his revolver at them, and it is believed that one was hit, as a cry answered his last shot. The Mexicans escaped.

SALAZAR MAY NOT GO TO SONORA CAMPAIGN

Americans who came from Casas Grandes Tuesday night say that Juan Salazar does not intend to come to Juarez. He is in Casas Grandes with 60 of his followers and will remain there. They say that the freight cars sent from Juarez for the purpose of bringing federal troops out to Casas Grandes and taking them to Chihuahua, Salazar having demanded that the federals be removed from the town.

SANTA BARBARA IS TAKEN BY FEDERALISTS

Advices were received in El Paso Wednesday that Santa Barbara, a mining town near Parral, was taken by federalists Tuesday afternoon. The rebels, who had been occupying the town since Sunday, when they executed the federal garrison of 40, were driven out Tuesday afternoon, after a brief fight, according to information received here.

SANCHEZ IN REVOLT AGAINST HUERTA REGIME

Jose de la Cruz Sanchez, a former Maderista revolutionary leader, later general of rurales, has taken the field against the Huerta national government. With nearly 1000 men he is reported to have taken Ojinaga, opposite Presidio, on the Texas border. A small federal garrison was routed and fled to Guadalupe, east of Juarez.

CASTRO, THE ACTRESS ARTIST, GETS INTO PRINT

Jesus Castro, the long haired Indian elgar sign, who may be seen on the streets of El Paso when he is not at home cutting paper pictures, broke into Bob Collier's well known national weekly this week. Jesus has been a familiar figure on the streets of El Paso since he took into town with the Maderista revolution before Juarez. He was shot in the scissers arm by a federal with no sense of the artistic, during the Juarez battle.

Local doctors volunteered to save the arm for art, and Jesus was given a home in an American family in El Paso. He clipped a cartoon of the suffering man from a magazine, which he sent to Collier's. The magazine reproduced the clipping, with a picture of Jesus.

Collier's also comments editorially upon the story of the shooting of Capt. Hamilton Bowie by a drunken trooper at Yalco. The New York Sun's story from El Paso of the shooting says that the trooper had been drinking at the village saloon, and Collier's asks what brand he was drinking.

POWERS OF BOARDS CONFLICT SAYS MR. CLANCY

Line Between Authority of Road Boards and County Commissioners Question for Courts, He Declares.

Albuquerque, N. M., March 26.—"The only way to adjust the conflicting authority of county commissioners and road boards is to carry the matter into the courts, according to an opinion from attorney general Frank W. Clancy, filed yesterday afternoon with the county commissioners by assistant district attorney H. E. Jamison."

It is difficult to say how much jurisdiction over road matters is left to the commissioners, the attorney general says. The 1915 law does not seem to put the expenditure of all road funds under the direction of the county road board and earlier statutes in regard to building bridges and prescribing the method for creating new roads are not specifically displaced, nor the power conferred on the commissioners transferred to the road board, Mr. Clancy says.

The road board is given authority to select and lay out a system of prospective county highways, but it does not seem entirely clear that this power is exclusive of the commissioners, the attorney general notes.

The only practical suggestion that the two boards should try to cooperate.

From The Pine Woods

HYOMEL'S Aromatic Air is Guaranteed to Relieve Catarrh or Cough Nothing.

HYOMEL is nature's true remedy for catarrh. There is no stomach dosing in using HYOMEL, no more than there is when you go to the mountains or the sea-shore to get relief from lung troubles.

When using the HYOMEL treatment, the air you breathe is like that on the mountains high above sea level where the pine woods fill the air with aromatic healing that gives health and strength to those suffering from diseases of the respiratory organs. Breathe through the nasal pocket, use halter that comes with every outfit, the healing balsams of HYOMEL reach the most remote air cells of the throat, nose and lungs, destroying all catarrhal germs and giving quick relief.

HYOMEL (pronounced High-o-mel) has performed almost miraculous cures of catarrh, often restoring health in chronic cases that had given up all hope of recovery. Its best action is at the start of the disease, when the breath is becoming offensive, and when discharges from the nose, droppings in the throat and frequent sneezing, sniffing or spasmodic coughing begin to make life a burden. At the first symptom of catarrhal trouble, such as sniffing and hawking, use HYOMEL and see how quickly you get relief.

The complete outfit costs but \$1.00, extra bottles, if later needed 50 cents, and is sold under guarantee to refund the money if it does not give satisfaction. Kelly and Pollard and drug stores everywhere.—Advertisement.

It's Love, Love, Love!

By Frances L. Garside.

They always speak of it as love's young dream because it so rarely lives to be old.

An engagement is like tomorrow, but marriage is like today.

Introduce wisdom into a love affair, and you wreck it.

Two important ways for a woman to avoid disappointment are never to fall in love, or put anything in the oven.

It doesn't take much to begin a romance, but there is often a wreck at stopping place.

The reason the love-making on the stage is so perfect is that he knows he will not have to pay for her clothes and groceries after the curtain falls.

Love makes the world go 'round, but it takes jealousy to make it move lively.

A popular song has this refrain, "I don't know why I love you, but I do." Don't try to discover the why of loving. Trying to find out why one loves results as tragically as punching a hole in a drum to see what makes the noise.

Probably one reason the birds are so happy is that they don't have to be married to the same bird longer than one season.

Love is often really a matter of nothing else going on.

No one over four years of age can throw a kiss gracefully.

The government is so anxious in prohibiting murder in the nature of a lottery going through the mails, it is a wonder it doesn't hold up love letters.

Is a kiss a blunder or a crime?

It is pleasant to talk of one love for life, but actual experience proves that it is easier to transfer a heart than it is to transfer a body.
